

**Southern New Hampshire Regional Water Project – Pressure Reducing Valve Stations  
Bi-Weekly Progress Report  
November 27, 2019**

This report identifies work on the Pressure Reducing Valve (PRV) Stations Project that Northeast Earth Mechanics, Inc. has completed in the last two weeks and anticipates progressing during the next two weeks. Project work will take place adjacent to, but off the roadway at two sites along Route 28. Travel on Rockingham Road (NH Route 28) should not be impacted during construction. Thank you for your patience during construction.

**Last Two Weeks**

- Northland Road Site:
  - Concrete footings and foundation wall have been placed.
  - Rigid insulation is being installed.
- Rail Trail Site:
  - Wooden forms and steel rebar have been laid for footings and foundation wall.

Rigid Insulation and De-Watering at Northland Road

Foundation Walls in Place at Northland Road

Placing Wooden Forms for Rebar Ties at Rail Trail

Steel Rebar in Place at Rail Trail

**Next Two Weeks**

- Foundation walls and below slab insulation will continue being placed at both Northland Road and Rail Trail Site. Material deliveries to both sites will continue.
