

**Southern New Hampshire Regional Water Project – Route 28 Water Main
Bi-Weekly Progress Report
May 8, 2020**

This report identifies work on the Route 28 Water Main Project that Revoli Construction has completed in the last two weeks and anticipates progressing during the next two weeks. Roads will remain open during the day, unless otherwise noted, and delays should be expected. There may be some night time work with alternating traffic around the work zone. Officers or flaggers will help you pass through the work zones. Thank you for your patience during the construction.

Last Two Weeks

- Water main installation in northern section of Route 28 in Windham was completed. Surface restoration began along Route 28 in previously disturbed areas
- Installation of water main via directional drilling at the intersection of Route 111 has begun.

Directional Drilling Begins at Route 111

Surface Restoration Adjacent to Cyr Lumber

Surface Restoration Continues

Water Main Re-Alignment at Route 111

Next Two Weeks

- Water main installation will continue adjacent to the Range Road intersection in Salem. Directional drilling and other work at the intersection of Route 111 will continue. Activities will continue to occur in other areas along the project route.
