

**Southern New Hampshire Regional Water Project – Route 28 Water Main  
Bi-Weekly Progress Report  
June 5, 2020**

This report identifies work on the Route 28 Water Main Project that Revoli Construction has completed in the last two weeks and anticipates progressing during the next two weeks. Roads will remain open during the day, unless otherwise noted, and delays should be expected. There may be some night time work with alternating traffic around the work zone. Officers or flaggers will help you pass through the work zones. Thank you for your patience during construction.

**Last Two Weeks**

- Water main installation for the crossing at the intersection of Route 28 and Range Road was completed. Surface restoration continued in previously disturbed areas along the project route.
- Water main installation at the intersection of Route 111 via directional drilling was completed.

**Directional Drill Head at Route 111**

**Thermal Fusion and Alignment of Pipe**

**Soil Stockpile Removal**

**Thermal Fusion of HDPE Pipe**

**Next Two Weeks**

- Additional water main connection and testing work will continue at the intersection of Route 28 and Route 111. Activities including water services installation, surface restoration, testing and cleanup efforts will continue to occur in other areas along the project route.
