PARTIAL PARKING LOT CLOSURE NOTICE

NH Route 28 Rail Trail Parking Lot Southern NH Regional Water Project – Route 28 Water Main April 10, 2020

A portion of The Rail Trail Parking Lot located at 371 North Broadway, at the Salem/Windham Town Line, will be closed to the public for approximately 4 to 5 weeks beginning **Monday, April 13, 2020**. Closure of the northern portion of this parking lot is necessary to accommodate management of contaminated soils and construction activities associated with the Southern New Hampshire Regional Water project. Access to the parking lot will remain open during this time with a few short-duration disruptions, however space will be limited and we ask that you keep a safe distance from construction equipment and barricaded areas. We sincerely appreciate your cooperation and understanding during this necessary closure.

Please visit the project webpage for updates, contacts, and additional information:
