

# **Southern New Hampshire Regional Water Project – Shannon Road Area Water Main**

## **Bi-Weekly Progress Report**

### **September 27, 2019**

This report identifies the work on the Shannon Road Area Water Main Project that American Excavating has completed in the last 2 weeks and anticipates to be working on during the next two (2) weeks. Roads will remain open during the day, unless otherwise noted, and delays should be expected. There may be some night time work with alternating traffic around the work zone. Officers will help you pass through the work zones. Thank you for your patience during the construction.

#### **Last Two (2) Weeks**

- Installation of water main at the Shannon Road Bridge/Culvert Crossing location began the week of 9/16.
  - Work occurred during the day and night to complete water main installation.
- Trench paving of Providence Hill Road was completed.
- Pressure testing of the HAWC water main was completed on 9/25.

Trench Paving on Providence Hill Road

Water Main Installation Continued

Preparation for Water Main Install

Night Work at Shannon Road Bridge

#### **Next Two (2) Weeks**

- Pressure testing of the Salem water main is in progress as of 9/26.
- Preparation for final paving of roadways to begin within the next week.
  - Final paving for the project is currently scheduled for late October.
