

TOWN OF SALEM NH

RFQ 2021-015

Janitorial Services

Addendum # 2

**Question 1:** Due to the DPW and WTP floors having not been previously waxed or stripped, can we provide a price to do an initial stripping and waxing outside of the two times required on the contract?

**Answer:** The answer is no for an initial stripping and waxing of floors at either building. Please price your proposal for the two stripping and waxing. The total square footage for the cleaning of the DPW building is about 2300sqft. I believe the square footage for the Water Treatment Plant is around the same amount.
